

San Bernardino LAFCO Fiscal Indicators

1

City of Highland

Report Created:11/3/2016

The City of Highland has chosen to contract with other entities for much of its service provision (fire/emergency response – CalFire, law enforcement – San Bernardino County Sheriff). Retail water service and wastewater collection is provided by the independent East Valley Water District, and wastewater treatment is provided by the City of San Bernardino Municipal Water Department. The City operates with governmental funds and reports no major business-type funds. The City does not identify any debt related to governmental or business-type activities. Redevelopment activities have been removed for all years to normalize for the dissolution of redevelopment agencies effective February 1, 2012.

Property Tax Revenue

Description

This indicator will have more importance for those agencies heavily reliant upon property tax revenues. As this revenue source is relatively stable and lags about two years behind changes in market conditions, this indicator can potentially depict the level of stability of an agency's revenue base.

Formula:
property tax revenue

Activities; Statement
of Revenues,
Expenditures and
Changes in Fund
Balance/Net Position

Agency Response

The audits include special assessments (landscaping, street-lights, parks, etc) under Property Taxes in the fund financial statement section, but not in the Statement of Activities section.

Sales Tax Revenue (cities)

Description

This indicator can help agencies determine the levels of sales tax revenue that are more sensitive to changes in the economic conditions, possibly impacting their abilities to fund and provide services.

General Fund Revenue (cities)

Description

In most cases, as the percentage of general revenues decreases, a local government loses its ability to respond to changing conditions and to citizens' needs and demands. Decreases in general revenue may also indicate over-dependence on external revenues which are often restricted in nature and could signal future difficulty in maintaining service levels. A ratio of one or higher indicates that the service is self-supporting.

Service Obligation (governmental)

Description

Measures whether or not a government's annual revenues were sufficient to pay for annual operations. A ratio of one or higher indicates that a government lived within its annual revenues.

Formula:
$$\frac{\text{operating revenue}}{\text{operating expenditures}}$$

Pension Payments

Description

This indicator depicts the relationship between the pension payments as a percentage of an agency's total revenues. Due to pending updates to pension reporting requirements, the Pension Payments indicator does not show data for 2015. GASB 68 revised and established new financial reporting for pensions effective for 2015. Effective beginning 2017, GASB 73 and GASB 82 amend GASB 68, although implementation may occur earlier. Therefore, updates to the Pension Payments indicator will not occur until full implementation of GASB 73 and GASB 82.

Formula:

annual pension
cost/total revenue
